

Orange and Grouse Soft Hackle

Hook: Mustad 3906 wet fly or similar

Body: Orange Pearsal Silk

Fur Collar: Light Hares Ear or bleached Australian Possum

Hackle: Gray/Brown Hungarian Partridge

I have used this mostly as a dropper with another fly at the point. Fish up and across and allow it to swing across downstream. Also used when trout are feeding in the film on Sulfurs. Grease the leader to one foot from the fly.
